Owner / CEO · Pest Pro, LLC

PROPOSAL NO.
PP-2026-ECG-P2-001 · June 30, 2026

OVERVIEW

Pest Pro, LLC submits this proposal to expand its existing pest management relationship with Excelsior Care Group to seven additional skilled nursing and rehabilitation facilities within the portfolio. This proposal covers the properties listed herein and reflects a **multi-property discounted rate** extended in recognition of the full portfolio relationship.

This document is a service proposal. If accepted, a separate service agreement may be executed for each individual property, as required. Any facility may be excluded from the proposed arrangement without effect on the remaining properties.

Each property in this proposal presents its own conditions and pest pressures. Service at every location will be built around a custom-tailored Integrated Pest Management program designed for the specific needs, layout, and regulatory requirements of that facility.

Pest elimination cannot be guaranteed where structural deficiencies, unresolved repairs, or sanitation conditions remain unaddressed. Pest Pro will identify and document these conditions at each visit and communicate findings directly to the appropriate facility contacts. Remediation of structural and sanitation issues is the responsibility of the facility.

FACILITIES AND MONTHLY INVESTMENT

The rates below reflect a discounted portfolio pricing structure. Individual facility pricing may differ when assessed on a standalone basis.

Facility	Address	Monthly Rate
Rehabilitation and Nursing Center of Winter Park	1700 Monroe Avenue, Maitland, FL 32751	\$1,300.00
Melbourne Healthcare and Rehabilitation Center	1415 S Hickory St, Melbourne, FL 32901	\$1,100.00
Charming Lakes Rehabilitation and Care Center	2020 W Lake Parker Dr, Lakeland, FL 33805	\$1,200.00
Breezy Hills Rehabilitation Center	5245 N Socrum Loop Rd, Lakeland, FL 33809	\$1,000.00
Wedgewood Healthcare and Rehabilitation Center	1010 Carpenters Way, Lakeland, FL 33809	\$1,000.00
Space Coast Healthcare and Rehabilitation Center	125 Alma Blvd, Merritt Island, FL 32953	\$1,000.00
Vista Manor Rehabilitation Center	1550 Jess Parrish Ct, Titusville, FL 32796	\$1,000.00
Monthly total · seven facilities covered by this proposal		\$7,600.00
Rehabilitation Center of Orlando (RCO) · active agreement, not included in this proposal		\$800.00
Combined monthly investment · full Excelsior Care Group regional portfolio		\$8,400.00

All rates reflect a multi-property portfolio discount. Rates are guaranteed for 24 months from the service commencement date and are subject to an annual increase of no more than 3% thereafter.

SERVICE FREQUENCY

All facilities will begin service at four visits per month, or at whatever frequency is necessary to address existing pest pressures and bring each property to a pest-free condition. Once a facility has been confirmed stable, service transitions to two visits per month as the standard maintenance schedule.

Should new pest pressures arise at any time, service frequency will adjust as necessary according to pest activity levels to ensure proper and thorough coverage. The monthly rate does not change based on visit frequency, and no separate authorization is required for Pest Pro to respond to active pest conditions.

WHAT THE MONTHLY RATE COVERS

The following are included in the flat monthly rate at each facility. These services are routinely billed as separate line items by most providers:

Service	Most Providers	Pest Pro
Scheduled service visits	Varies	Guaranteed. Initial service at four visits per month to achieve pest-free status; transitions to two visits per month for ongoing maintenance.
Custom-tailored IPM program per property	Standard contract applied uniformly	Included. Each facility receives a program built for its specific conditions
Dietary kitchen IPM	Billed separately or not offered	Included every service cycle
Rodent bait station monitoring	Billed separately	Monitoring and maintenance of all existing compliant stations included. New installations and replacements quoted separately.
Fly light glue board monitor maintenance	Billed separately or not offered	Included. Pest Pro will monitor and maintain all approved fly light glue board monitors on property
Exterior perimeter treatment	A la carte, billed separately	Included. Inspection each visit, full perimeter treatment quarterly
Emergency callbacks for covered pests	Billed per visit	Included, within 24 hours, typically same day
Increased frequency during active infestation	Extra charge or not offered	Included, same flat monthly rate
Monthly service reports	Varies	Provided monthly and upon request at any time
AHCA and CMS-ready documentation	Varies	Included, formatted to support regulatory documentation review

Fly Lights: Pest Pro is not responsible for the sale, installation, or repair of fly light units. Pest Pro will monitor and maintain approved fly light glue board monitors already on property as part of the included program. Units requiring repair or replacement are the responsibility of the facility.

Rodent Bait Stations (RBS): State-approved tamper-resistant weighted rodent bait monitoring stations will be installed where needed at **\$25.00 per station**. Stations are maintained on a quarterly basis or as needed. Pest Pro is not responsible for the repair or replacement of any RBS. Missing or damaged stations will be replaced at \$25.00 each upon facility approval. Pest Pro will monitor and maintain any existing stations on property that meet applicable state guidelines at no additional charge.

SERVICE COVERAGE

Every service visit covers the complete interior and exterior of the facility. All resident wings and common areas are worked on a rotating documented schedule so that every area of the property receives inspection and treatment within each service cycle. Dietary kitchen and all rodent bait stations are serviced on every cycle.

Service areas include: all resident rooms and wings, dietary kitchen and food storage areas, dining rooms and nourishment stations, nursing stations, all common areas and hallways, activity and therapy rooms, administrative and staff offices, storage and mechanical rooms, laundry facilities, and the full exterior perimeter.

TREATMENT APPROACH

All products are EPA-registered and selected for use in occupied healthcare environments. Applications are crack and crevice, enclosed bait stations, and targeted treatments only. No broadcast or open-space applications are made in patient care areas. In the dietary kitchen, all products meet food-service compliance standards.

Service logbooks are maintained at each property and updated following each visit. Monthly summary reports are provided to designated contacts and are available at any time upon request. Reports are formatted to support AHCA and CMS survey documentation needs. All Pest Pro technicians are state-licensed and trained for service in occupied healthcare environments. A Certificate of Insurance is available upon request. Product safety data sheets are available upon request for all materials in use at any property.

PESTS COVERED

✓ INCLUDED AT FLAT MONTHLY RATE

- Cockroaches, all species including German roach
- Palmetto bugs and American roaches
- General ants (exclusions noted)
- Spiders
- Silverfish and firebrats
- Rodents, rats and mice, interior and exterior
- House flies and drain flies
- Stored product pests
- Occasional invaders: crickets, earwigs, centipedes
- General household pest insects

✗ NOT COVERED · QUOTED SEPARATELY

- **Bed bugs** · quoted and billed per occurrence
- Fire ants, Pharaoh ants, Carpenter ants, Argentine ants
- Fleas and ticks
- Bees, wasps, and hornets
- Wildlife, snakes, and nuisance animals
- Termites and wood-destroying organisms
- Stinging or venomous insects

Non-covered pest services are quoted prior to service. Emergency response for non-covered pests: \$180.00 per visit.

TRANSITION AND START OF SERVICE

Pest Pro is prepared to begin at all seven facilities simultaneously or on a coordinated rollout over a 30 to 60 day period. Before service begins at any property, Pest Pro will coordinate directly with Thomas Schnell and the appropriate contacts at each facility, including the Executive Director, Chief Engineer, and Dietary Manager, to establish the service schedule and ensure all parties are prepared before the first visit.

Suggested rollout sequence, subject to Excelsior Care Group direction and each facility's readiness:

Start Order	Facility	Location
First	Rehabilitation and Nursing Center of Winter Park	Maitland, FL
Second	Vista Manor Rehabilitation Center Melbourne Healthcare and Rehabilitation Center Space Coast Healthcare and Rehabilitation Center	Titusville, FL Melbourne, FL Merritt Island, FL
Third	Breezy Hills Rehabilitation Center Wedgewood Healthcare and Rehabilitation Center Charming Lakes Rehabilitation and Care Center	Lakeland, FL Lakeland, FL Lakeland, FL

OUR COMMITMENTS

- Pest Pro will not cancel or defer any scheduled service visit without advance notice to the facility. If a visit cannot be completed as scheduled, it will be rescheduled within the same service cycle
- A dedicated technician familiar with each facility's layout and operations is assigned to that property
- Emergency callbacks for covered pests are responded to within 24 hours, typically the same day, at no additional charge
- All calls and messages are returned within four hours during normal service hours
- Dietary kitchen and rodent monitoring are completed on every service cycle
- A certified pest control operator is reachable by phone during normal service hours for any concern that cannot be resolved at the technician level

FACILITY RESPONSIBILITIES

- Sanitary conditions maintained in all service areas, including prompt cleanup of food spills and moisture sources
- Dietary kitchen trash emptied and secured nightly; no uncovered food left in kitchen or storage after hours
- Structural gaps, cracks, and utility penetrations reported to Pest Pro when identified
- Vegetation and landscaping kept trimmed away from the building perimeter
- Dumpster and refuse areas kept clean and free of accumulated debris
- Access provided to all areas on scheduled service days
- Pest activity reported promptly to the assigned technician or our office
- One point of contact designated per facility for scheduling, with a secondary contact for urgent matters
- The primary responsibility for notifying residents, employees, and individuals with health sensitivities regarding pest control services rests with facility administration. Pest Pro will provide advance notice of scheduled service to the designated facility contact. It is the facility's responsibility to inform any individuals who may require precautionary measures.

REGULATORY SCOPE

Pest Pro, LLC provides pest control services as described in this proposal. The responsibility for compliance with all applicable AHCA, CMS, and state and federal healthcare facility regulations, including the maintenance of required documentation and the implementation of facility-wide sanitation and environmental standards, rests with the facility operator and management. Pest Pro's program is designed to support each facility's pest management objectives but does not constitute a guarantee of regulatory compliance or survey readiness.

TERMS

- This proposal is valid for 30 days from June 30, 2026
- This is a service proposal. If accepted, a formal service agreement may be executed for each individual property as required. Any facility may be excluded from the arrangement without effect on the remaining properties.
- Service begins on a mutually agreed date following acceptance
- Invoices are issued at the close of each service month and are due within 30 days of the invoice date (Net 30)
- Monthly rates are guaranteed for 24 months from the service start date at each facility and are subject to an annual increase of no more than 3% thereafter
- Following the initial 24-month term, the agreement renews automatically on a month-to-month basis unless cancelled
- Either party may cancel at any time, including within the initial 24-month term, with 30 days written notice
- Normal service hours are Monday through Saturday, 8:00 AM to 6:00 PM. Emergency service for covered pests is available within 24 hours
- Bed bugs, non-covered pests, and specialty treatments are not included in the monthly rate and are quoted separately prior to service
- Emergency response for non-covered pests: \$180.00 per visit
