BACKGROUND & REFERENCE

This quote is prepared in connection with our initial inspection and service report dated **June 13, 2026** (Report No. PP-2026-WH-001) and the follow-up service visit performed on **August 21, 2026**. The property was found to have the same active conditions documented in the original report. The two open structural penetrations identified on June 13, 2026 beneath the outdoor grill cabinetry remain unaddressed at the time of this visit.

Note: The structural penetrations and conditions documented in Report No. PP-2026-WH-001 are the primary drivers of ongoing rodent activity at this property. Pest Pro's services treat active infestation and monitor activity levels. Permanent resolution requires the structural repairs outlined in the original report, including sealing of both penetrations by a licensed contractor and evaluation of the electrical penetration by a licensed electrician.

SERVICES RENDERED & SCHEDULED

SERVICE	DATE	DESCRIPTION	AMOUNT
Follow-Up Inspection & Trap Service	8/21/2026	On-site inspection, full trap check, additional trap and monitor placement in primary rodent travel corridors. Active	\$120.00

SERVICE	DATE	DESCRIPTION	AMOUNT
		conditions from original 6/13/2026 report confirmed. No structural repairs had been completed at the time of this visit.	
Follow-Up Inspection & Trap Service	8/24/2026	Return visit to check and replace monitors, re-inspect treated areas, and assess current activity levels. Adjustments to treatment plan made as needed based on findings.	\$80.00
Current Services Total			\$200.00

RECOMMENDED ONGOING SERVICES

Given the nature of the conditions at this property and the ongoing presence of active access points, we recommend the following ongoing treatment plan to manage and ultimately resolve the rodent issue.

SERVICE	DESCRIPTION	RATE
Monthly Rodent Monitoring + GHP Spray	Monthly service visits for full rodent monitoring of interior and exterior perimeters, plus General Household Pest (GHP) treatment covering Ants, Roaches, Palmettos, Water Bugs, Spiders, Silverfish, and Earwigs. Active treatment phase continues at this rate until rodent activity is resolved. Plan then converts automatically to (converts to \$79/bi-monthly once resolved)	\$80.00/mo

SERVICE	DESCRIPTION	RATE
	bi-monthly service at \$79.00 per visit. No contracts required.	

OPTIONAL SERVICES — PENDING APPROVAL

Tamper-Resistant Rodent Bait Stations	OPTIONAL	Installation of four (4) tamper- resistant rodent bait stations along the exterior perimeter of the structure. These stations are designed to be safe in guest- accessible outdoor spaces and provide an ongoing layer of perimeter defense, reducing rodent pressure from outside the structure. Stations are serviced and checked during each scheduled visit at no additional charge. Four stations recommended.	\$25.00 each \$100.00 total (4 stations)
---------------------------------------	----------	--	--

SUMMARY

8/21/2026 — Follow-Up Inspection & Trap Service	\$120.00
8/24/2026 — Follow-Up Inspection & Trap Service	\$80.00

Monthly Rodent Monitoring + GHP Spray (recommended)	\$80.00/mo
Tamper-Resistant Bait Stations — 4 units (optional, pending approval)	\$100.00

Safety Notice: Mechanical snap traps are currently placed beneath the outdoor BBQ cabinet area. Please advise all guests, property staff, and anyone with access to the patio that these traps are in place. They can cause injury if handled improperly and should be kept away from children and pets. Our technician will check and service all traps at the 8/24 visit.

This quote is valid for 30 days from the date of issue. To approve optional services or discuss your plan, please contact us at (407) 922-2276 or info@PestProLLC.com.
